

COMMUNITY SERVICE PROJECT

We proudly support CityYouth Ministries, a member agency of the United Way of Northeast Arkansas.

CYM has 14 computers in need of maintenance and updates. We are organizing now to obtain licensing for Microsoft Office and other software tools for these kids to use on these computers.

IF YOU WOULD LIKE TO DONATE OR BE A PART OF OUR MAINTENANCE TEAM, PLEASE CONTACT ONE OF OUR FACULTY ADVISORS OR OFFICERS.

Update March 14th: Details are still in the planning stages but our target service date is a weekend nearer the end of April. A scout team will go to CYM earlier in the month to evaluate each computer and determine each computers needs. Our goal is to clean up each system with a disk defrag, perform any necessary Microsoft Windows updates, install a common antivirus program, install Microsoft Office, and install any other software or perform any other configuration details that CYM would like us to do.

Jerry Jones is spearheading our effort but you may contact any of our officers or advisors if you wish to participate.
